Tonon 100% made in Italy

Since 1926 Tonon is a well-known international brand in the world of seating, reliable and synonymous with design and quality MADE IN ITALY. Characterizing features that come from the past: their origins date back to the twenties, include years of careful and creative manufacturing. Even after the industrialization of the fifties, the pleasure of thinking and making never ended. Tonon today bases itself on research and development, on new materials and technologies, with a craftsman's heart and an industrial mind.

Tonon & design

Behind every product stays a face. Important international architects are developing together with us proposals for the domestic and commercial markets. Professional people with different cultural backgrounds create our seating collections with great aesthetic and functional sensitivity and this in harmony with the declared Tonon philosophy: to present products for international markets.

Tonon & customized products

In parallel to the organization of the standard production, in Tonon we have a team which responds to the continuous and increasing demand of customized products, especially in the HORECA business (hotels, restaurants, cafeterias). Tonon is able to collaborate efficiently with the customers and with the design studios, creating new product versions.

Tonon & customers

Tonon customers are all over the world. Our sales office and our export managers are doing the best to assist our customers.

Tonon & environment

We are proud to be energy independent: with our solar energy system we are producing as much energy as we consume, which in terms of environmental sustainability corresponds to an emission reduction of 123.000 kg. of CO2 per year.

Casa&Soft a company of Tonon

In 2011 Tonon added as satellite the company Casa&soft. This company allows Tonon to get more and more involved in the soft seating. Specially for customized orders in the contract business, Tonon is now competitive also with their sofa products.

SAILOR

Sailor è una collezione composta da sedia, sgabello e lounge. Tutti i prodotti di questa linea sono impilabili. Invece della tradizionale tecnica intrecciata usata per le sedute, il design si ispira alle reti dei pescatori, che vengono associate al sole, alla spiaggia e all'acqua di mare.

Le corde nautiche in poliestere e le strutture in acciaio sono resistenti alle intemperie, sia nella stagione fredda che in quella calda.

Pensiamo al nostro mondo!

Sailor è un prodotto durevole che richiede poca manutenzione, è realizzato con materiali riciclabili provenienti da aziende locali.

La crescente consapevolezza ambientale, l'aumento dei consumi, l'escalation dei prezzi delle materie prime e la loro carenza globale stanno aumentando la domanda di beni riciclabili. Un prerequisito per un prodotto ecologico è quello di poter separare tra loro tutti i suoi componenti.

La collezione Sailor soddisfa questo requisito.

Sailor is a collection made of chair, barstool and lounge. All products of this line are stackable.

Instead of the traditional rope braiding techniques for seating products, the design is inspired by fishermen nets, which are connected with the sun, beach and sea water.

The polyester nautical ropes and the steel frames are weather resistant, both in cold and hot season. We think to our world!

Sailor is a durable product and has low maintenance requirements, it's made from recyclable materials, which are produced by local manufacturers.

The growing environmental awareness, the consumption increasing, the escalation of raw material prices and their global shortages are increasing the demand for recyclable goods. A prerequisite for an ecological product is to be able to separate all its components from each other.

Sailor collection meets this requirement.

THE COLLECTION

SAILOR

Le strutture della collezione sailor sono prodotte in acciaio verniciato a polvere ed il loro intreccio viene fatto completamente a mano da due persone.

The structures of the sailor collection are produced in steel, powder coated, and their intertwining is entirely handmade by two people.

Per intrecciare una sedia sono necessari 60 minuti e 80 metri di cima nautica, mentre per una lounge si impiegano 90 minuti di lavoro e 130 metri di materiale.

It takes 60 minutes and 80 meters of nautical rope to weave a chair, while for a lounge 90 minutes of work and 130 meters of material are requested.

La cima nautica è una treccia dotata di un'anima in PET HT ed un inserto memory mentre la calza esterna è realizzata in poliestere. Il poliestere ad Alta Tenacità utilizzato per le nostre cime nautiche è tinto in pasta, garantisce solidità alla luce, una ottima resistenza agli agenti atmosferici, alle abrasioni ed alla trazione.

The nautical rope is a braid equipped with a core in PET HT and a memory insert while the external cover is in polyester. The High Tenacity Polyester dyed in paste, guarantees light fastness, low elongation, and a good resistance to atmospheric agents and abrasion.

La manualità, la creatività e l'artigianalità hanno creato un prodotto di design con un ottimo comfort.

The manual skills, the creativity and the craftsmanship have created a design product with an excellent comfort.

Che sia per outdoor,
dove la pioggia, il sole,
il vento e l’umidità sono
nemici assoluti dei mobili.
Che sia per una casa.
Che sia per un albergo,
un ristorante, un pub. In
qualsiasi ambiente si trovi,
la versatilità della sailor e
il suo design accattivante
daranno prova di sé.

Whether for outdoors,
where rain, sun, wind and
humidity are absolute
enemies of furniture.
Whether it’s for a home.
Whether it’s for a hotel,
a restaurant, a pub.
Whatever environment it’s
in, the versatility of sailor
and its attractive design
will be emphasized.

Immaginatevi un giardino in piena fioritura e il sole primaverile che scalda tenuamente la pelle. Immaginatevi seduti sulla sailor Lounge, dove l'elasticità della corda e l'intreccio avvolgente donano alla seduta robustezza e comodità. Che tu sia nel tuo giardino o all'esterno di un albergo, qualsiasi posto diventerà un piccolo Eden, nel quale abbandonarsi al totale relax.

Imagine a garden in full bloom and the spring sun softly warming your skin. Imagine yourself sitting in the sailor lounge, where the elasticity of the rope and the wraparound weave give the seat strength and comfort. Whether you are in your garden or outside a hotel, any place will become a little Eden, in which to indulge in total relaxation.

SAILOR_stool

Non poteva mancare nella sailor collection lo sgabello, ideale per bere un drink all’aria aperta in compagnia o per gustare uno spuntino. È infatti una seduta che ben si adatta a divenire un pezzo d’arredo pratico e armonico per l’outdoor di un bar o ristorante. Ma anche per chi ha voglia di sentirsi al bar (per l’aperitivo), stando comodamente a casa propria.

The stool in the sailor collection could not be missing. Ideal for having an outdoor drink with friends or for enjoying a snack. It is in fact a seat which is well suited to become a practical and harmonious piece of furniture for the outdoors of a café or restaurant. But also for those who want to feel like at the bar (having an aperitif), in the comfort of their own home.

U-TABLE_outdoor

849.80

Una nuova variante outdoor per il nostro tavolo di successo U-Table. Il materiale del piano e' un laminato HPL (high performance laminate) ed è perfetto per l'uso esterno. Il laminato HPL ha una superficie antigraffio ed è resistente alla luce e agli shock termici. La base del tavolo viene proposta in acciaio, laccato opaco a polveri epossidiche per uso esterno.

A new outdoor version for our successful U-Table. The material of the table top in HPL (high performance laminate) is perfect for outdoor use. The laminate HPL is extremely durable with its anti-scratch surface, is resistant to the UV rays and to thermal shocks. The base of the table is in steel, matt lacquered with epoxy powders for outdoor use.

SAILOR collection supera il test della pulizia con candeggina al 5% diluita.

SAILOR collection - bleach-cleanable

Le norme igieniche dell'Organizzazione mondiale della sanità raccomandano, per la disinfezione delle superfici, una soluzione di acqua e ipoclorito di sodio allo 0,1%. La soluzione, che si ottiene aggiungendo 50 ml di candeggina per uso domestico al 5% in 2,5 litri di acqua, combatte batteri e germi e garantisce i massimi risultati di pulizia.

The hygiene recommendations of the World Health Organization prescribe that all surfaces should be cleaned with a solution of water and 0.1% sodium hypochlorite (the solution is formulated by adding 50 ml of 5% household bleach in 2.5 liters of water). The mixture formulated fights bacteria and germs, guarantees maximum cleaning and ensures that clean surfaces are sanitized.

Abbiamo testato il materiale secondo le norme igieniche dell'OMS

We have tested the material according to the WHO hygiene standards

La corda usata nella collezione SAILOR è stata testata per la resistenza a questo tipo di pulizia dal laboratorio di prova Catas utilizzando il metodo di immersione ISO 2812-1: 2017 in una soluzione di acqua e ipoclorito di sodio allo 0,1%. Dopo quattro ore di immersione ad una temperatura di $23 \pm 2^\circ \text{C}$, non sono state rilevate variazioni nella superficie e nel colore.

The rope used for the SAILOR collection was tested for the resistance by the Catas test laboratory using the immersion method ISO 2812-1: 2017 in a solution of water and 0.1% sodium hypochlorite.

After four hours of immersion at a temperature of $23 \pm 2^\circ \text{C}$, no changes were detected on the surface of the material and in the color.
